

Participant Safety Guideline

COVID Safety Protocols for Participants

1. Players will be expected to complete a covid screening on the day of the booking prior to entering the facility. This will also serve as a record (date stamped with player name and contact) for contact tracing purposes. **Failure to do so will result in the player being denied entry to the session.**
2. Players will be expected to change within the 10 minute time frame allowed. Some may choose to come fully or partially dressed with the exception of having skates on.
3. Once players enter the facility they will be required to wear a mask.
4. While players are in the dressing area without their helmets on they will be required to wear a face mask. Face masks and sanitizer will be available to all players upon entry.
5. Players will be expected to use the full length of the bench and space out as much as possible.
6. Sharing of water bottles will not be permitted by players.
7. While on the bench and the playing surface players must always wear their hockey gloves.
8. There will be NO SPITTING allowed at all. If you see this please let us know.
9. When players are not on the bench or playing surface, players will adhere to keeping 2 meters apart. There will be markers on the bench.
10. Players will be expected to follow the signage in the facility to help maintain social distancing when arriving and exiting.

11. Players will be provided a floor plan detailing the directional flow for safe entrance and safe exit from the facility.
12. Game Play. We have always tried to maintain **safety first** and a competition second environment. Hockey has contact but it's possible to play with avoidance of contact. Keeping this balance is the key to our cohorts staying safe and using the facilities. While everyone has paid, if there are complaints about your style of gameplay you will receive a first warning via email and the second one will either result in suspension or expulsion.
13. If you find yourself at a cohort with varying ranges of skill level, please maintain a positive attitude and use this time to get some exercise and have fun, chirping celly's, hogging the puck, or hotdogging just make it less enjoyable for others so don't bring that behaviour.
14. Lastly If you find yourself at a ice time where someone is not acting appropriately , try and communicate to the offending party and if you do not get the desired result send us an email support@hockeytourney.ca with details on what occurred and the night it happened.

*****Any participants not observing the new safety guidelines may be removed without refund*****
